III. Answer the following:

- Read the questions and find answers in the given paragraph.
  - Write about Newton's mother.
  - What did Newton invent as a young child?
  - In what kind of things was Newton interested as a boy?
  - When did Newton become famous?
  - How did Newton influence other scientists?

Newton was born in 1642 at Wools Thorpe in England. His father, a farmer, had died before Newton was born. Newton's mother was an intelligent lady. Newton had great affection and regard for his mother. As a boy, he was greatly interested in scientific experiments. He loved to play with mechanical toys and loved to make and fly kites. He invented a small windmill in his childhood. He often watched the stars and made a number of sundials. Immediately after joining college, Newton began to work on the problems that made him so famous. He made many discoveries and inventions. He was a great scholar and genius. Many scientists were inspired by him.
